

EVOLVING WELLNESS

In response to the recent tragedies that have affected families and residents of the Chippewa Valley, Evolving Wellness is establishing the Love and Light Wellness Fund. This is a public donation fund in order to offer help and support to those affected by these unfortunate events. The donated funds will be used to provide financial support for short- and long-term holistic/alternative healthcare services for families, friends, students, teachers, first responders and other members of the community who were close to the victims and are coping with grief and emotional trauma.

Evolving Wellness is comprised of a group of providers in the Eau Claire area that offer a wide variety of services that can help individuals cope with stress, mental and physical illness and emotions that can result from sudden traumatic events. Evolving Wellness and its providers want to give back to the community and offer an outlet for members of the community that want to help those in need but may not know how.

As providers, the most impactful thing we can do is utilizing our hearts, knowledge, resources and abilities to make sure our wounded community members are taken care of in the best ways available. Those that have been affected will be able to consult with and choose which providers they would like to see. They will then be able to utilize donated funds to offset the cost so that they can receive the care and attention they need to continue on in strength and health. These funds will be available beginning immediately and in the months and years to come so that we can continue to care for those affected as publicity and coverage begin to fade. Individuals and community members that want to donate to the fund can access the donation link via our Evolving wellness facebook page.

Together we can be the LOVE and LIGHT in the midst of darkness.
